# Design better with a proper design system.

The world of UX/UI design can feel large and overwhelming. Knowing a tool like Figma will make your journey as smooth as silk.

Understand UI design in detail from typography and colour palettes to buttons, animations, and imagery so you can create websites and apps that will appeal to users

Learn the ins and outs of Figma so you can be ahead of the curve and confidently create pixel perfect design for desktop and mobile

Look at how to implement branding and design for a variety of industries including hotels, restaurants, small business and corporates so you feel prepared to take on your own clients

Work effectively in a team setting or with clients using Figma's live collaboration tools to setup and share projects and designs

Easily create UX/UI via a powerful platform

# Hands-on training so you feel comfortable in the world of UX/UI.

- Upgrade your UX and UI skills to work in the collaborative cloud. The perfect tool for real team work for an entire design systems.
- Learn how create stunning designs in real time with the most powerful and popular tool in the industry.
- Go deeper into the UX and UI workflow and how to prepare your designs to be worked on as a team, company, start-up and with developers.

*We believe your success is our success*

"Our instructors are industry experts who have a wide range of professional experience, and up-to-date knowledge of software and workplace practices.

Turn theory into knowledge as you learn to design and create engaging interfaces, user-centric interactions, customer journeys, apps and more. Our aim is to support your learning goals with hands-on industry training, career advice, and ongoing support and guidance.

Our classes are intentionally designed to be interactive and practical, so that you feel confident to share ideas as well as independently create your own designs.

You will receive additional resources such as class projects, worksheets, and online help, so you always feel supported and encouraged as you learn.

Our courses are constantly reevaluated and developed to give students the most relevant, up-to-date knowledge and skills. We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally. "

# Course outline

Week 1

# Our teaching philosophy

We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally.

---

## **Personalised learning system**

We design our courses using the 4MAT Model, which approaches learning in a holistic way combining the left-brain and right-brain, so you will learn topics and skills in a unique way that enables you to use them in the real-world with confidence.

---

## **Practical**

We show you how to use industry-specific tools and programs, so you get lots and lots of practice and feel confident to use them independently.

---

## **Real-world applications**

Our industry expert instructors are with you every step of the way, providing guidance through problem-solving and sharing valuable real world experiences.

---

## **Friendly**

Our industry expert instructors create a relaxed and friendly atmosphere, so you feel comfortable, have fun, and enjoy participating.

Here's what you'll be able to do after the course<sup>\*11</sup>

## Desktop and mobile design

"Feel confident to use the tool independently to create captivating designs for desktop and mobile application

## Work professionally

Know how to work with client content and design; prototype, share and comment.
