"To come and study here was one of the best decisions I have made in my life"

Tseeka TK, Google review 5 stars
ReactJS for front-end development. Powerful, easy to learn and easy to use

Designed for developers and designers with experience, the Front-end Development with React JavaScript (JS) course is designed to give you hands-on training and practice using React JS so you can learn how to build and launch a React app from start to finish.

Invest in yourself and your teams to learn React JS with lots of practice to be prepared with one of the most sought after skill sets in the tech industry.

Easy-lo-learn API for front-end developers to enhance skills and back-end developers to learn React JS from scratch.

Dive into the source code of Redux to understand how React JS works behind the scenes so that you can use it with React and other JavaScript frameworks and libraries in the future.

Learn how to build front-end user interfaces using React JS’s independent, isolated and reusable components so you can develop stunning and interactive app.
React is hot and trending. It’s one of the most popular frontend technologies in the market.
Considering that super successful companies like Facebook and PayPal use React, that must mean that it’s a truly useful library.

- Invest in yourself and your teams to learn React JS with lots of practice to be prepared with one of the most sought after skill sets in the tech industry
- Easy-to-learn API for front-end developers to enhance skills and back-end developers to learn React JS from scratch
- Dive into the source code of Redux to understand how React JS works behind the scenes so that you can use it with React and other JavaScript frameworks and libraries in the future

We believe your success is our success
Our instructors are industry experts who have a wide range of professional experience, and up-to-date knowledge of software and workplace practices.

Turn theory into knowledge as you learn how to build front-end user interfaces using React JS. Our aim is to support your learning goals with hands-on industry training, career advice, and ongoing support and guidance.

Our classes are intentionally designed to be interactive and practical, so that you feel confident to share ideas as well as independently create your own designs.

You will receive additional resources such as class projects, worksheets, and online help, so you always feel supported and encouraged as you learn.

Our courses are constantly reevaluated and developed to give students the most relevant, up-to-date knowledge and skills. We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally.
# Course outline

## Week 1

<table>
<thead>
<tr>
<th>Lesson</th>
<th>Theory</th>
<th>Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>First React Application</td>
<td>ReactDOM, Elements and JSX followed by an overview in classes</td>
<td>Set up the portfolio application - the first project of the course.</td>
</tr>
</tbody>
</table>

## Week 2

<table>
<thead>
<tr>
<th>Lesson</th>
<th>Theory</th>
<th>Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Main React Concepts</td>
<td>Understand lifecycle methods and their purpose, starting with componentDidMount.</td>
<td>Make a fetch call within a React application to an external API to power the data behind a new component around Jokes.</td>
</tr>
<tr>
<td>Lesson</td>
<td>Theory</td>
<td>Practice</td>
</tr>
<tr>
<td>-------------</td>
<td>------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Core react</td>
<td>This last lesson is mainly practice but we do cover the planning of the</td>
<td>Video sharing application with filtering and sorting.</td>
</tr>
<tr>
<td>project</td>
<td>project.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
## Our teaching philosophy

We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally.

<table>
<thead>
<tr>
<th>Personalised learning system</th>
<th>We work with you individually to gain confidence and become prepared to take your first steps in a new direction—both personally and professionally.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Practical</td>
<td>We show you how to use industry-specific tools and programs, so you get lots and lots of practice and feel confident to use them independently.</td>
</tr>
<tr>
<td>Real-world applications</td>
<td>Our industry expert instructors are with you every step of the way, providing guidance through problem-solving and sharing valuable real world experiences.</td>
</tr>
<tr>
<td>Friendly</td>
<td>Our industry expert instructors create a relaxed and friendly atmosphere, so you feel comfortable, have fun, and enjoy participating.</td>
</tr>
</tbody>
</table>
Here’s what you’ll be able to do after the course

**Work from scratch**
Have a clear understanding of how React JS works from scratch. Build stunning, interactive and powerful front-end interfaces using the power of React. Make sense for your business.

**Use Redux**
Feel confident using Redux.

**Build JS app**
Build a React JS app from start to finish.
Payment

Early bird 10% off
Book and pay 30 days in advance and save 10% off your total

Refer a friend
