Increase the value of your brand through moving graphics and visual effects

- Create full Motion Graphics Animation Videos in After Effects, from stunning video intros to visual effects for your projects.
- See how AE and PS collaborate with Premier to make your projects really come to life.
- Learn about the powerful motion graphics, filters and visual effects you can easily work with for a variety of personal projects or for your business.

We believe your success is our success

"Our instructors are industry experts who have a wide range of professional experience, and up-to-date knowledge of software and workplace practices.

Turn theory into knowledge as you learn to create 2D, 2.5D animation, Title animation and more. Our aim is to support your learning goals with hands-on industry training, career advice, and ongoing support and guidance.

Our classes are intentionally designed to be interactive and practical, so that you feel confident to share ideas as well as independently create your own designs.

You will receive additional resources such as class projects, worksheets, and online help, so you always feel supported and encouraged as you learn.

Our courses are constantly reevaluated and developed to give students the most relevant, up-to-date knowledge and skills. We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally. "

Course outline

Week 1		
Lesson	**Theory**	**Practice**
The Basic	Dive into basic workspace setup, tools and Adobe After Effects' nature	A step by step follow-through. Create a short mock-up project in order to have a material to work with
Building A Strong Foundation	The workflow to increase efficiency.	Continue with the mock project. Let the student create a short motion graphic video to demonstrate their understanding.

Week 2		
Lesson	**Theory**	**Practice**
The Effect	What are some useful After Effect's effects.	Create a piece of stand-alone motion graphic.
Effect And Video	Learn how to add effect to an imported video. Get familiar with tools.	Create a piece of visual effect video.

Our teaching philosophy

We want you to feel confident and prepared to take your first steps in a new direction—both personally and professionally.

Personalised learning system	We design our courses using the 4MAT Model, which approaches learning in a holistic way combining the left-brain and right-brain, so you will learn topics and skills in a unique way that enables you to use them in the real-world with confidence.
Practical	We show you how to use industry-specific tools and programs, so you get lots and lots of practice and feel confident to use them independently.
Real-world applications	Our industry expert instructors are with you every step of the way, providing guidance through problem-solving and sharing valuable real world experiences.
Friendly	Our industry expert instructors create a relaxed and friendly atmosphere, so you feel comfortable, have fun, and enjoy participating.
